

## Warrington Dolphins Long Distance Swimming Club

### Annual Report 2021

This was the second year that club activities affected by covid restrictions. Despite this we managed to run indoor training at Sankey on Fridays from June 21 and at Broomfields on Mondays from Sept 21. Club members have returned to our sessions which was great to see after the lockdowns. We were not able to have coached sessions however for most sessions we did manage to organise a swimming set to follow.

As club did not hold any events during the year although members did take part in several swimming events during the year.

I would like to thank Rob Waterhouse who had to step down as President during the year for his contribution to the club over a number of years. I would also like to thank Julie Trevor, Georgina Halford and Anita Dodd who are standing down from the committee for their contributions to the committee.

I would also like to highlight the great work done by Caroline Lewis for the BLDSA in running their One Hour swimming challenge. For the work Caroline does our club receives a share of the profits which is an important source of club funds.

I'm looking forward to the rest of 2022 when we can all hopefully have more opportunities to swim and do more as a club.

David Bowker  
Acting President
